

MD SIAM MEHEDI

Undergraduate Student | Computer Science and Engineering | AIUB

Mirpur 13 Block B, Dhaka | +880 1312938704

Gmail | GitHub | LinkedIn

PROFESSIONAL SUMMARY

High-achieving Computer Science & Engineering graduate with a versatile background in **Software Development and AI/ML Research**. Expert in building robust applications using **C# and Java**, while specialized in **NLP and Data Analytics** using Python and SQL. A proactive problem solver with a strong grip on **Data Structures and Algorithms**, I bridge the gap between complex research and scalable software solutions. Passionate about **workflow automation (n8n)** and dedicated to creating high-impact, data-driven systems.

EXPERIENCE

Software Development Trainee <i>ABC Tech Solutions Ltd., Dhaka, Bangladesh</i>	Jan 2025 – May 2025
- Assisted in developing and testing software modules using C++ and .Net. - Debugged code and improved program efficiency under senior developer guidance. - Gained hands-on experience in version control and collaborative development.	
Data Analysis <i>Tech Wings Analytics, Dhaka, Bangladesh</i>	July 2025 – present
- Worked with structured datasets to perform basic data cleaning and analysis. - Applied regression models and visualization techniques for academic datasets. - Supported research documentation and report preparation.	

EDUCATION

American International University-Bangladesh (AIUB) <i>Bachelor of Science in Computer Science and Engineering</i>	2022 - Present
Dhanghara High School, Raiganj, Sirajganj <i>Higher Secondary Certificate (HSC)</i>	2019 - 2021

SKILLS

Technical Skills	Soft Skills
Software Development: C++, C#, Java, Python, PHP, .NET Framework, OOP, SOLID Principles, Web Tech (HTML, CSS, JS). AI / ML & Data: Machine Learning, NLP, Data Preprocessing, Model Evaluation, SQL (MySQL, Oracle), PL/SQL. Research & Tools: Requirement Analysis (SRS), SDLC/STLC, UML, Manual & Automation Testing (Selenium, Postman), Jira, n8n (Automation).	- Problem Solving (DSA) - Analytical Thinking - Team Leadership - Research & Documentation - Project Management - Effective Communication

PROJECTS

Book Review Platform – Erbtech Project Technology: PHP, MySQL, JavaScript, HTML, CSS Engineered a multi-user platform with distinct modules for Readers, Authors, and Managers , ensuring a role-based access control system. * Readers: Implemented features for book discovery, personalized reviews, and interactive ratings. * Authors: Developed a dedicated dashboard for authors to manage their profiles, upload book summaries, and engage with reader feedback. * Managers: Built a comprehensive administrative panel for content moderation, user management, and platform-wide analytics. * Optimized database architecture to handle relational data between multiple user roles and large book catalogs efficiently.	
Airport Reservation System – C# & .NET Technology: C#, MS SQL Server, .NET Framework Developed a desktop-based reservation management system focusing on flight scheduling, passenger booking, and ticket generation. Applied OOP principles to handle complex entities and integrated a relational database for real-time tracking.	

Daily Airport Life: A Pilot's Perspective – Computer Graphics

Technology: C++, OpenGL, Graphics Pipeline

Engineered a dynamic 3D simulation depicting a pilot's daily routine, focusing on seamless camera transitions from indoor terminals to outdoor cockpits. Implemented advanced lighting models and perspective transformations to enhance visual realism.

Crafty - Software Requirement Specification (SRS)

Technology/Tools: UML, Draw.io, MS Word / SRS Documentation, Jira

Made a comprehensive SRS document following standard guidelines. Included requirement elicitation, use case diagrams, and functional/non-functional specifications.

Student Management System

Technology: Java

Developed a desktop application to manage student information with persistent file handling and a user-friendly GUI.

Introduction to Database Course - MySQL Project

Technology: Oracle SQL

Designed normalized schemas and applied CRUD operations. Executed complex queries, joins, and indexing for efficient data retrieval.

PROFESSIONAL & VOLUNTEERING EXPERIENCE

AIUB Computer Club

Feb 2024 - Present

General Member

- Participated in seminars, workshops, and tech events organized by the club.
- Engaged in collaborative projects to enhance technical skills.

Social Welfare Club, SOMOY

Oct 2023 - July 2025

Organizer-Volunteer

- Collaborated with team members to manage event logistics and social awareness campaigns, enhancing organizational and leadership skills.

ACHIEVEMENTS & CERTIFICATIONS

CHAMPION:

- Intra University Poster Presentation Competition
- AIUB Intra University Robo Championship

CISCO IT Essentials Certification
